

I personally would appreciate your not implementing any proposals that would affect our Indiana Telephone Privacy Law. I used to receive 6 or more calls per day. I also used to receive many hang up calls every day. The Carmel Police informed me that these hang up calls were telemarketers. The telemarketers apparently place several calls at once and then talk to the first person who answers while simultaneously hanging up on the other calls made. The hang up calls were very disruptive. These hang up calls have stopped since I signed up for the Telephone Privacy Law. Some telemarketers are extremely rude when inform that I am not interested in their product. I realize these callers earn their money by making sales, but my policy is to never buy anything from telemarketers. I am very polite to these callers, but they often will not stop talking when I inform them I am not going to buy anything from them. I receive perhaps only 1 or 2 calls per month now. Please do not make any changes to our current Indiana Telephone Privacy Laws.

Sincerely,  
Karen Jardina
